 New for 2024

Variety	FAO	Growing Area	Early Vigour	Yield of Controls	Starch Content	ME Level	Standing Power	Use	Treatment	Pack Size
  <b>TEMPRANO</b>  This ultra-early variety offers outstanding, class-leading yields of 17.1 t/ha DM, with improved genetics delivering an extra 0.5 t DM/ha. It boasts exceptional starch content & is highly suited for diets with 50% or lower maize inclusion. With superb early vigor, it is ideal for both early & late drilling, while its rapid dry-down ensures an early harvest.	150	Fav/ Less Fav	6.7/6.9	94	38.6/38.5	11.78/ 11.76	7.7/7.2	Forage	Initio Bird Protect	50,000 Seeds
  <b>FAITH</b> A relatively new variety reaching the pinnacle of modern breeding delivering in all aspects. Very high yielding for favourable & less favourable sites. Great cob formation on a robust plant helps provide a high quality, high energy silage. Good resistance to fusarium extends harvest window compared to other ultra early varieties.	170	Fav/ Less Fav	7.2	103/104	34.2/34.6	11.64/ 11.59	7.8/7.6	Forage/AD	Initio Bird Protect	50,000 Seeds
  <b>FOXTROT</b> Boasting excellent dry matter yield & high digestibility, it delivers good starch content & remarkable early vigor, making it outstanding under plastic. With superb starch yields, Foxtrot ranks among the top-performing varieties available, offering reliability & exceptional results.	170	Fav/ Less Fav	7.2/7	103/102	35.1/35.4	11.76/ 11.75	6.7/6.2	Forage/AD	Korit Pro	50,000 Seeds
  <b>ES MYRDAL</b> This very high yielding variety was added to the NIAB List for 2023/4. A very large, robust maturity class 8 plant which produces large cobs. Exceptional yields on favourable sites, and suitable for medium/bodied soils. Performed very well in recent years with many fields recording fresh yields in excess of 50 tonnes per hectare.	180	Fav/ Less Fav	7.1	104/105	29.1/30.1	11.27/ 11.26	7/6.6	Forage/AD	Redigo M & Korit	45,000 Seeds
  <b>PINNACLE</b> Pinnacle has good early vigour, providing rapid early season growth and early flowering, that leads to the production of well-developed cobs with a high starch content and yield. It has good Eyespot tolerance and remains healthy with improved digestibility at harvest.	180	Fav/ Less Fav	7/6.8	98/100	35.7/36.2	11.71/ 11.7	7.4/7.1	Forage/ AD/Grain	Korit Pro	50,000 Seeds

# Hubbards Seeds **MAIZE PORTFOLIO** 2025

Variety	FAO	Growing Area	Early Vigour	Yield of Controls	Starch Content	ME Level	Standing Power	Use	Treatment	Pack Size
 <p><b>ANASTASIO</b></p> <p>This variety delivers high dry matter yields (19.2 t/ha DM - 103%), great starch content (32.5%) for high-maize diets, and excellent energy content (11.56 MJ/kg DM) to boost ration performance. It is highly suitable for CCM, grain cropping, and versatile systems like forage and biogas. With leading early vigor (7.1), it ensures rapid establishment across all soil types.</p>	<b>180/190</b>	Fav	7.1	103	32.5	11.56	7.6	Forage/AD/Grain	Initio Bird Protect	50,000 Seeds
 <p><b>LIKE IT</b></p> <p>LIKEIT is a high yielding variety with excellent standing power and high disease resistance, offering all things to all growers. With a bold plant and fully enclosed cob, LIKEIT is a dependable heavy yielder for every site and hits the mark as a tri-purpose variety.</p>	<b>190</b>	Fav/ Less Fav	6.9/6.8	97	32.7/34	11.56/ 11.55	8/8.2	Forage/AD/Grain	Redigo M & Korit	45,000 Seeds
 <p><b>PAPAGENO</b></p> <p>This variety delivers excellent dry matter yields (19.5 t/ha DM - 105%) with well-balanced starch content for high-maize inclusion diets and great energy to enhance animal performance. With high early vigor (6.7), it is versatile for silage, grain, and biogas use, making it an ideal choice to extend drilling and harvest windows.</p>	<b>190</b>	Fav	6.7	105	32	11.53	7.2	Forage/AD/Grain	Initio Bird Protect	50,000 Seeds
 <p><b>EMELEEN</b></p> <p>New variety from the same stable as Crosbey. After 4 years in official trials this massive high yielding variety looks like it will be a great addition to our portfolio, giving 105% of yield over controls. It exhibits decent drought tolerance, has excellent early vigour with an impressive cob set. To optimise yield drill early on best growing sites.</p>	<b>200</b>	Fav	6.9	105	30	11.42	7.5	Forage/AD	Redigo M & Korit	45,000 Seeds

 New for 2024

Variety	FAO	Growing Area	Early Vigour	Yield of Controls	Starch Content	ME Level	Standing Power	Use	Treatment	Pack Size
 <p><b>FARMUNOX</b></p> <p>High level of harvest flexibility. Suited to forage, CCM, crimped, dried grain, &amp; biogas. FARMUNOX delivers high-energy forage with exceptional ME and dry matter yields (18.7 t/ha) and impressive starch content. It boasts top-tier eye spot resistance, excellent early vigor, and ME yields of 217 (1000s MJ/ha) on Less Favourable sites, making it a rising star for outstanding performance.</p>	210	Fav	6.4	101	32.1	11.61	6.8	Forage/AD	Redigo M & Korit	50,000 Seeds
 <p><b>CROSBY</b></p> <p>This exciting very high yielding forage &amp; grain variety has really proved itself in the last 4 years, producing some of the best yield results on lighter soils. Produces robust plants exhibiting sturdy strong stems and superb cob set. European data &amp; our own UK experience suggests excellent tolerance of heat &amp; drought.</p>	215	Fav	6.5	103	31.8	11.32	8	Forage/ Grain	Redigo M & Korit	50,000 Seeds
 <p><b>GRANTURISMO</b> </p> <p>This variety delivers an impressive yield of 20.2 t/ha DM (109%) with high anaerobic digestion (AD) potential thanks to its substantial output. Its balanced starch content (27.8%) supports high inclusion rates in ruminant diets, while super early vigor (6.8) makes it ideal for early sowing and later harvests, particularly on lighter soils.</p>	220	Fav	6.8	109	27.8	11.24	8.1	AD	Initio Bird Protect	50,000 Seeds
 <p><b>ES METRONOM</b></p> <p>Metronom, listed in 2018, is a high-yield maize variety (18.9 tonnes DM/ha) with excellent disease resistance and strong standing power. Its later maturity (FAO 225) maximizes the growing season, producing high-quality silage with strong stay-green traits. Best sown at 38,000–42,500 seeds per acre on favourable medium soils.</p>	225	Very Fav	7	102	28.3	11.07	8.2	Forage/AD	Redigo M & Korit	45,000 Seeds
